

GHA Solutions

Empowering companies to realise their full potential through innovative use of information and communication technologies

PO APPROVAL

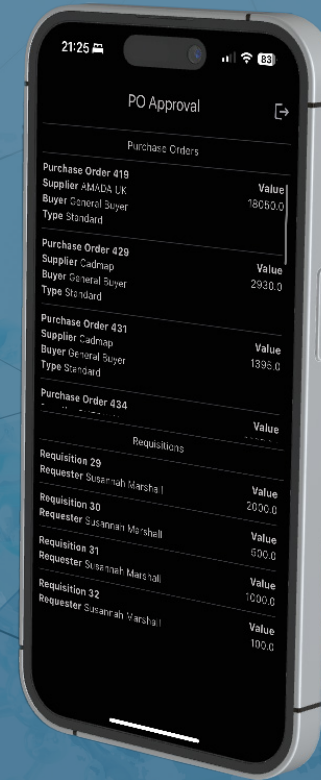

Epicor in your pocket is GHA's philosophy, no longer is there a need to wait for Purchase Orders and Requisitions to be approved, these can now be done on a mobile device. Available on both Android & Apple IOS.

Excellence in ERP

Full PO details including miscellaneous charges are displayed and the approver can approve or reject the PO with comments.

The Requisition details, show supplier and line details along with any comments from the requestor.

Notifications alert when a PO or Requisition approval is required.

The home page shows all the PO's and Requisitions that require approval.

There's More

This is just one of the many enhancements GHA provide to maximise your Kinetic ERP potential.
